

On Point Paper Piecing Workshop with Amy Friend of www.duringquiettime.com

Sew the Daisy Chain quilt from Amy's most recent book, *Petal and Stem*. In this class, you will learn how to create two on-point paper-pieced blocks, a stylized flower and stem. You'll learn both paper piecing skills and how to sew a curve to a paper pieced arc. This skill translates to other blocks such as the New York Beauty. Continue to sew your blocks at home and pop them into the on-point Daisy Chain layout, a modern layout with alternate gridwork and negative space.

Materials Fee: Due to the publisher's requirements and copyright issues, *Petal and Stem* is required for class and can be ordered directly from the instructor here:

<https://www.etsy.com/listing/754832292/petal-stem>

Please do not share copies.

General Supplies:

Sewing Machine

Cutting Mat

Rotary Cutter

Iron/Ironing Board

Ruler—at least 12" long

90/14 Sewing Machine Needle (Superior Titanium Coated Topstitch Needle recommended)

Thread for project (Aurifil Cotton 50wt recommended)

Pins (Clover Flower Head pins recommend)

Seam Ripper

Fabric Scissors

Fabric Requirements: (Note: depending on your comfort level, you may wish to purchase extra fabric. These requirements do not factor in extra for mistakes and assume that you will maximize your yardage.)

Fabric to have on hand for the workshop	Total fabric needed to complete project
2 yards of background fabric should be plenty	4 ½ yards of solid background fabric (more if a print)
Strip 2" x WOF, strip 1" x WOF of green fabric for leaves	1/3 yard green fabric for leaves
1/4 yard for petals	½ yard fabric for petals
4" x 20" piece for flower centers	¼ yard for flower centers

If you tend to always be ahead of the class, you may wish to bring more fabric.

Optional Supplies:

Glue Stick/Fabric Glue Pen

Stiletto

Smaller pins for curved piecing

Seam Roller (if you prefer over pressing)

Add a Quarter Ruler

Workshop Prep:

Please print a couple of copies of "Stem 4" and "Daisy" foundation patterns from *Petal + Stem*, following the enlargement directions found in the book. You can print these on copy paper or specialty paper piecing paper if you prefer. I use copy paper.
